

ATTENTION CONTRACTORS:

As of November 23, 2009 all single family homes must have the following submitted to SAFEbuilt prior to calling for underground plumbing inspection (*please note that this must be submitted prior to beginning any framing):

- Setback certification
- Perimeter drain engineer letter
- Footing engineer letter (if inspection was not called in and passed by SAFEbuilt inspectors prior to concrete pour)
- Foundation reinforcing engineer letter (if inspection was not called in and passed by SAFEbuilt inspectors prior to concrete pour)

Please note that having the letters on site at time of underground plumbing inspection is **no longer an option - these letters and certifications must be submitted to SAFEbuilt first as underground plumbing inspections cannot be scheduled without these letters and certification on record.

Submit engineer letters and setback certifications to SAFEbuilt by the following means:

FAX: (970) 686-9248

E-MAIL: trisha.koeltzow@safebuilt.com

In person: 561 E. Garden Drive, Unit C, Windsor, CO 80550
